

CRACKLE

High performance leather with consistent grain and uniform colour throughout the hide

Average Hide Size: 45 SQFT / 4 SQM

Average Thickness: 0.8 - 1.0 MM

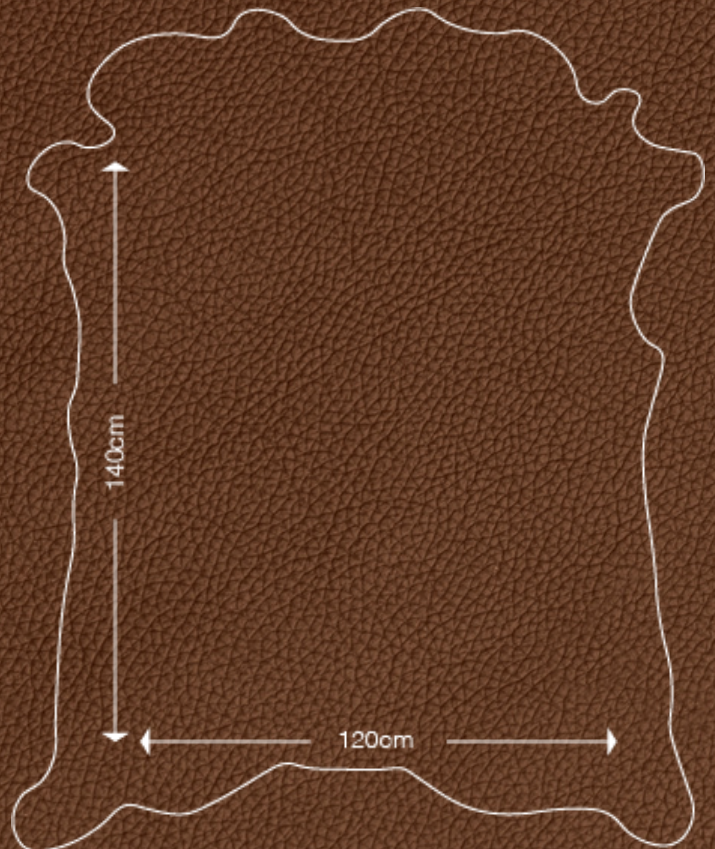

Country of Origin: ITALY

CARE & CLEANING:

Protected High Performance | A high-performance finish which ensures a more uniform and solid colour throughout the hide. The surface is more resistant to staining and scratching, ideal for high traffic areas. To clean stains on this leather, blot immediately with a clean absorbent cloth. Wipe gently with a damp cloth & warm water, blot again with a dry clean cloth. For harsh stains mild detergents can be used, it is recommended detergent is tested prior to use. Do not scrub heavily.

TESTING:

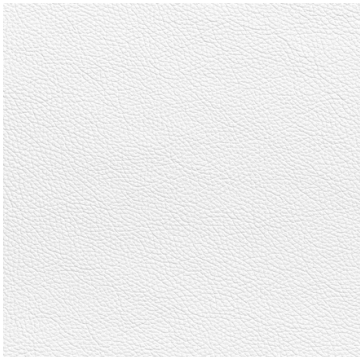

FR certification available upon request. Zisu Leather can facilitate the FR treatment of our leathers to achieve the certification required.

Average Hide Size: 45 SQFT / 4 SQM
